Christmas Events - Photography

Dear parents and carers,

We are thoroughly looking forward to welcoming families into school to watch all Christmas events this year and would like to outline our expectations for using mobile phones and devices to photograph or record the performances.

We have several children in school that **are not permitted** to have photographs/videos taken, therefore, to ensure we are fully inclusive of all children participating in events we have taken steps to prohibit the use of devices during all performances.

We are kindly asking for your co-operation in this matter to ensure the safeguarding of all pupils in the academy.

Parents/carers and wider family members seen not adhering to this rule will be asked to leave the performance immediately and further action may be considered.

Thank you for your continued support.

Miss R Jackson
Head of Academy
